

Fig. 1

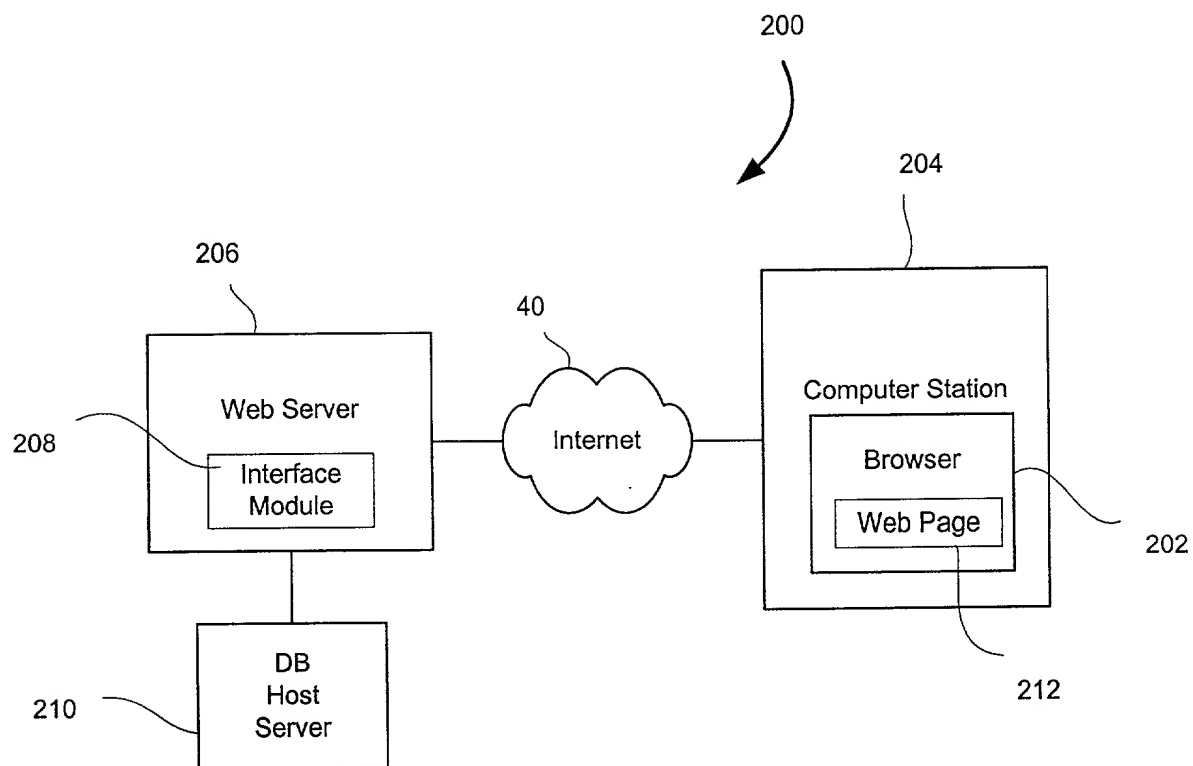

Fig. 2

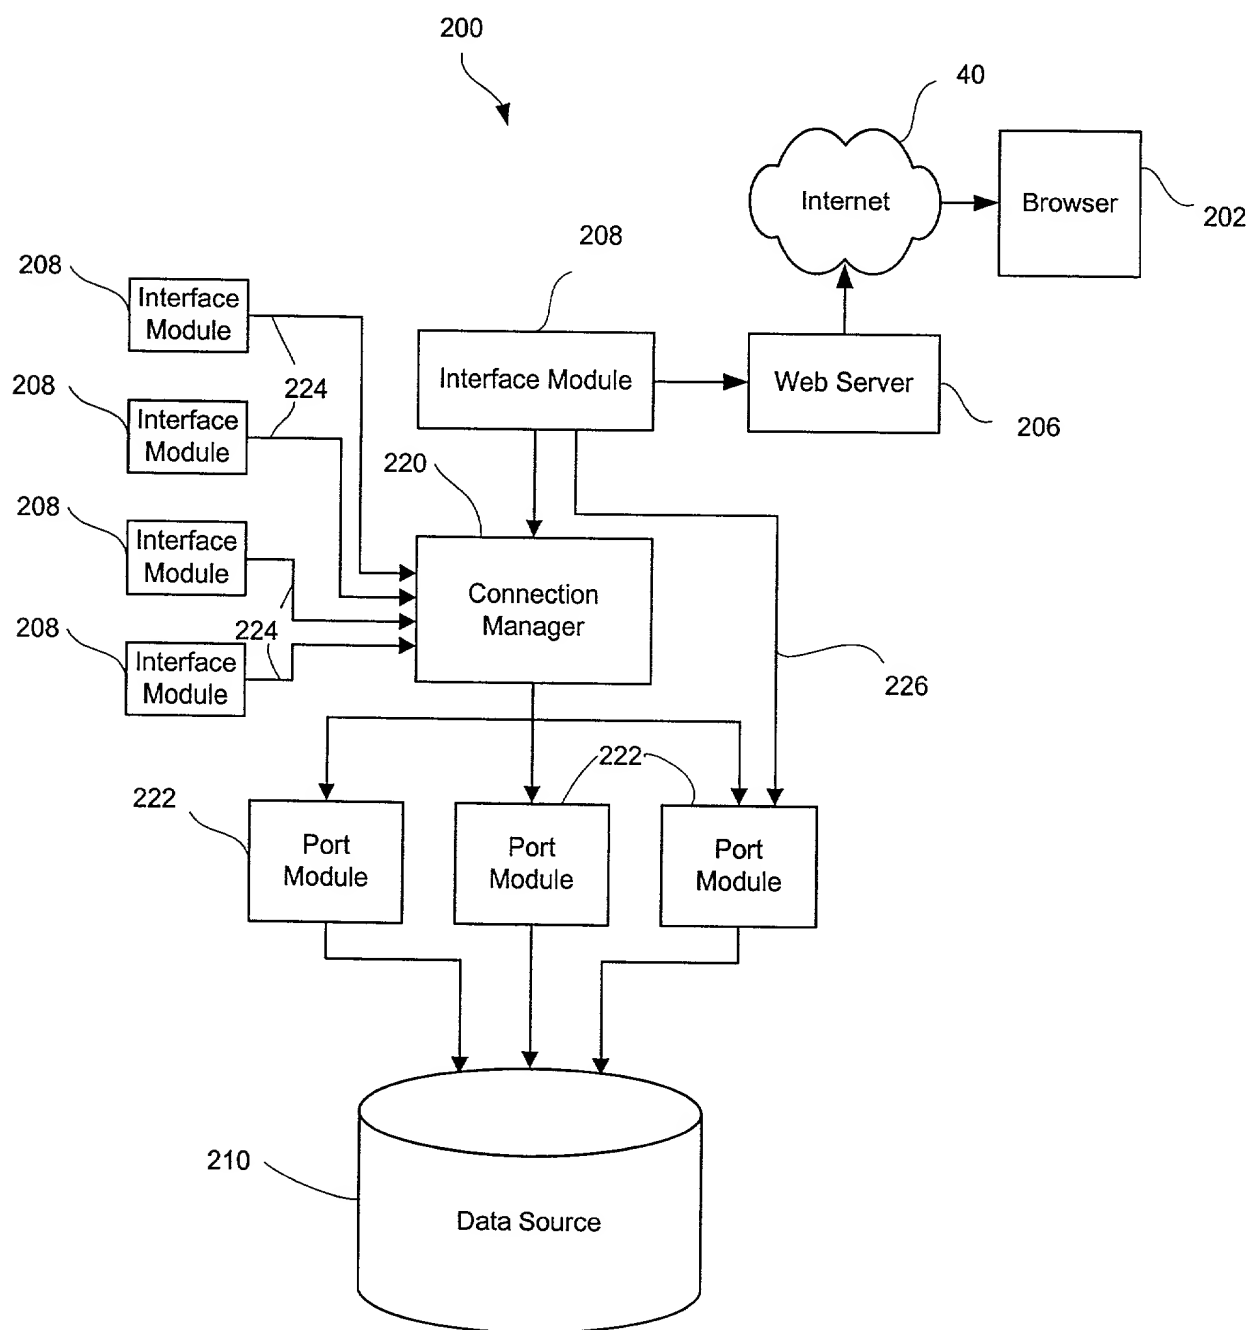

Fig. 3

Figure 1 consists of 12 histograms arranged in a 6x2 grid. The left column shows distributions for $n = 10, 20, 30, 40, 50, 60$. The right column shows distributions for $n = 70, 80, 90, 100, 110, 120$. Each histogram has 'Number of non-zero elements' on the x-axis and 'Frequency' on the y-axis. The distributions are roughly bell-shaped and centered around $n/2$.
